What Kind of City Do You Want?

Education, Environment, and Accountability

On March 5th, San Francisco voters have the power to improve education and protect the environment for all Californians by electing leaders with real integrity to state and local government. Local ballot propositions will make the political process more fair and open, and stop construction of new billboards.

Vote for **Dan Kelly** to make the California Assembly more responsive to the needs of everyday Californians—better schools, clean water and air, and a stronger commitment to housing and public transportation.

We urge you to vote for the environment on Tuesday, March 5th.
