### Yes on RM3: Relieve Traffic Now

RM3 will improve Bay Area transportation options, particularly public transit.

[yesonrm3.com](http://yesonrm3.com)

### Yes on A: Clean & Safe Energy

Prop A will help San Francisco build more clean energy infrastructure to reduce air pollution and climate-changing greenhouse gas emissions. It will allow the SFPUC to issue bonds to fund projects such as rooftop solar, vehicle charging stations, energy storage, distributed energy, and “smart grid” innovations. Enabling our city to generate more energy itself, instead of buying it from PG&E, will also save us money, and allow further investment in reducing our carbon footprint.

### Yes on G: Better Pay for Teachers

Prop G will help keep teachers and families in San Francisco.

[yestosfteachers.com](http://yestosfteachers.com)

### Yes on D: Housing for All

Our affordable housing crisis is also a sustainability issue. When people are unable to afford homes in San Francisco, they

move to car-dependent suburbs, where they use more resources, hurting air quality, water quality, and the climate. By slightly raising the “gross receipts” tax on large commercial landlords, Prop D would generate an estimated \$70 million/year to help more people afford homes here, particularly those most in need.

### Yes on E: Kids vs. Tobacco

Prop E protects kids from tobacco products marketed at them, and less smoking means cleaner

air, less toxics dumped in waterways, less trash, and safer wildlife.
